

JRS Project Progress update

- GIS and Remote sensing Research Group
- GDEs Research Team

Capacity Building Component

GIS and Remote sensing Research Component

1. Kudzai Shaun Mpakairi **MSc in Environmental and Water Science-Registered 2021**

- **Research title:** Spatial characterization of dominant vegetation species clusters in the Khakea-Bray Transboundary aquifer.

2. Berel Mangana Rampheri (**PhD Environmental Sciences- UWC-2021**)

Remotely sensed delineation groundwater dependent ecosystems in Khakea/Bray Transboundary Aquifer.
